

**Question on notice no. 212**

**Portfolio question number: BET212**

**2024-25 Budget estimates**

**Economics Committee, Treasury Portfolio**

**Senator Malcolm Roberts:** asked the Australian Taxation Office on 17 June 2024—

In June estimates it was put to FIRB that foreign investors bought 11% of new housing stock. This figure was not contested. Please confirm whether the 11% figure for foreign investor purchases of new housing stock in Q4 of 2023 is accurate, and if not, what proportion of new housing stock was purchased by foreign investors for all quarters or relevant reporting periods the FIRB has over the previous 24 months.
